As he approached the froth of electric lights cantilevered over the entrance, Barry could feel the middle of his body turning hollow with excitement, his throat and tongue getting tingly. Whatever the reason, Swyley's ability to pick out significant details from a hopeless mess of background garbage and to distinguish consistently between valid information and decoys was justly famed and uncanny. But since Swyley himself didn't understand how he did it, he was unable to explain it to the systems programmers, who had hoped to duplicate his feats with their image-analysis programs. That had been when the "-sits" and the "-zoologists" began their endless batteries of fruitless tests. Eventually Swyley made up plausible-sounding explanations for the benefit of the specialists, but these were exposed when the programs written to their specifications failed to work. Then Swyley began claiming that his mysterious gift had suddenly deserted him completely. "You have no choice." Tendrils of green and blue wormed their way into the pattern. "I'm as much a.
